

structures and any compensatory mitigation is complete. These estimates are based on assumptions of Congressional funding levels, rock prices, dredging costs, sediment loads, mitigation costs, etc. Because these assumptions are uncertain, the estimated quantity of construction could differ from actual implementation.

Environmental impacts of the work associated with the Selected Plan will continue to be avoided and minimized to the extent practicable. Placement of river training structures is expected to increase the acreage of low-velocity habitat that is considered important habitat for many MMR fish species. However, placement of river training structures is also expected to reduce shallow to moderate-depth, moderate-to high-velocity habitat that is important for some MMR fish guilds. Analysis of the impacts of the Selected Plan to main channel border habitat suggests that future construction of river training structures will result in the consideration of compensatory mitigation measures. The specific impacts of each work area and any necessary compensatory mitigation measures will be covered in Tier II Site Specific Environmental Assessments, as appropriate.

FOR FURTHER INFORMATION CONTACT: Mr. John Yagecic, Manager, Water Quality Assessment, john.yagecic@drbc.nj.gov, 609-883-9500, ext. 271.

SUPPLEMENTARY INFORMATION: The Delaware River Basin Commission ("DRBC" or "Commission") is an interstate and federal compact agency that was created in 1961 by concurrent legislation of the States of Delaware, New Jersey, and New York, the Commonwealth of Pennsylvania and the United States Government for purpose of jointly managing the water resources of the Delaware River Basin.

DRBC currently is compiling data for the 2018 Delaware River and Bay Water Quality Assessment Report ("2018 Assessment") required by the federal Clean Water Act ("CWA"). The 2018 Assessment will present the extent to which waters of the Delaware River and Bay are attaining designated uses in accordance with Section 305(b) of the CWA and the Commission's Water Quality Regulations, 18 CFR part 410, and will identify impaired waters, which consist of waters in which surface water quality standards are not being met.

The proposed assessment methodology to be used in the 2018 Assessment is available for review at the following URL:
