

RESEARCHER

Researcher is a collection of robust, visually engaging, and intuitive library search interfaces.

🔍 List Search

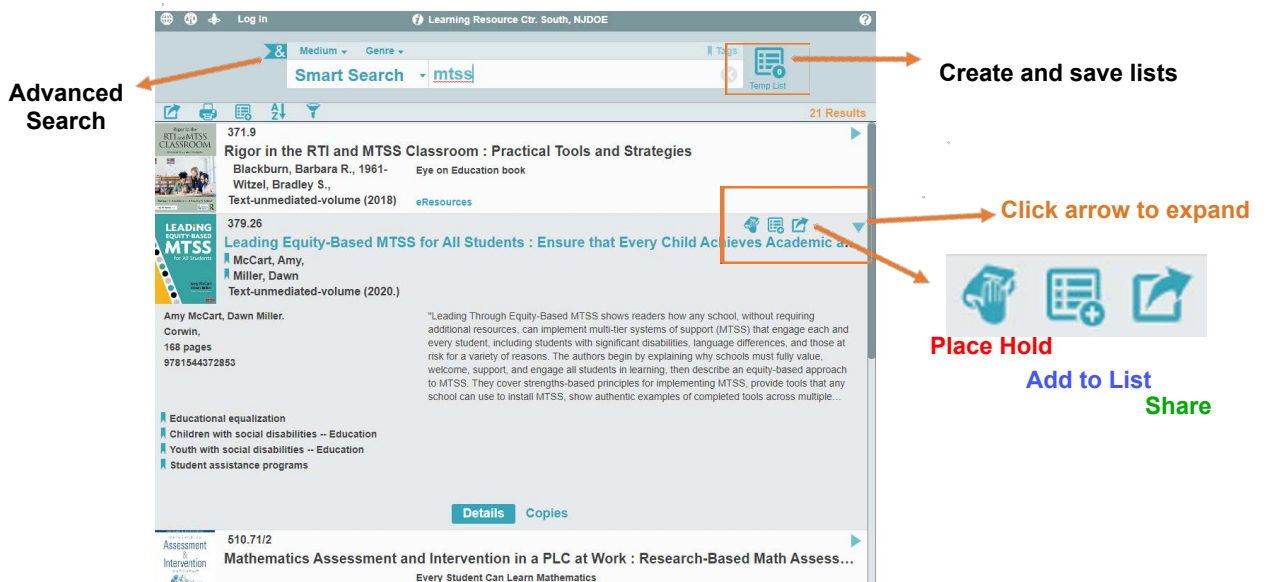

The advanced features of the **Search** interface help you to locate books and other available library materials.

SEARCH PANE

Performing a Search

As you type, Alexandria will start returning the most relevant results immediately.

After a search, the **Results List** appears with useful tools that help you narrow down results using post-search filters and add found titles to **Saved Lists**.

Visual Search

A fast, powerful, and genuinely intuitive smart search that favors titles, authors, series, and subjects before all other results. In fact, exact title and author matches are always shown first, making your results significantly more relevant.

Explore

Explore is a visually engaging graphical interface that uses large, clickable icons to locate items in your collection.

EXPLORE PANES

To search using the Explore interface, click on one of the picture-buttons. Some of these buttons will perform instant searches; others will take you new panes, and some can even open outside websites in a new tab of your web browser.

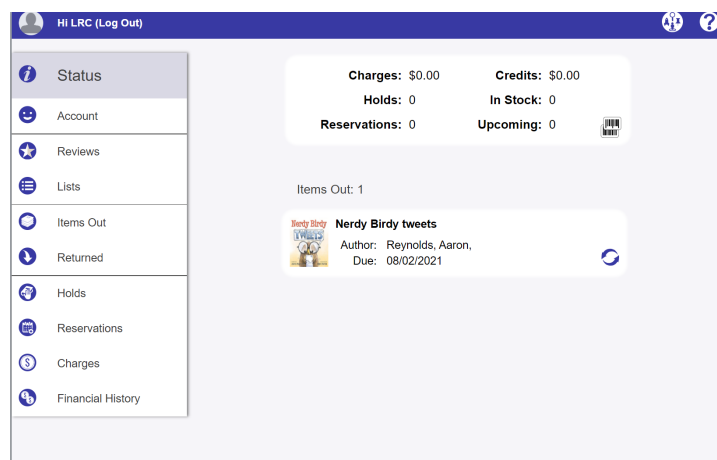

The results that are returned from an Explore-based search look exactly the same as those from a standard search.

New Items

An engaging way to display items in a shelf view, no searching required! Patrons can choose the highlighted items by using **Browse by Newest** - view up to 50 of the most recently added titles to your library that have been added in the last 180 days.

Patron Account

Patron Account allows patrons online access to their LRC-North accounts. Patrons can access their barcode/membership number, renew items, and update personal information.

Bulletins
