

Together we have the
power to stop infections.

Project Firstline (PFL) is a national initiative designed to provide training and additional education and tools regarding infection prevention and control (IPC) practices to frontline healthcare workers. The goal is to provide foundational knowledge of IPC measures and emphasize the importance of implementing these protocols throughout the workday to ensure best practices in healthcare settings.

What we have to offer:

TRAINING FOR

FRONTLINE HEALTHCARE WORKERS

Delivers critical IPC information to address immediate training needs tailored to the healthcare workforce preferences via products, methods, and platforms.

Available topics include:

- "Recognizing Risk Using Reservoirs"
- "Virus Basics and Transmission"
- "Hand Hygiene"
- "Personal Protective Equipment"
- "Cleaning and Disinfection"
- "Multi-Dose Vials"
- "Ventilation"

TRAIN THE TRAINER PROGRAM

The goal is to support healthcare leaders to lead culturally-relevant IPC trainings for your staff and facility. This initiative provides resources, PFL curriculum, and support from the NJDOH PFL team. We want to equip your staff with the tools to empower team members with the knowledge and confidence to apply IPC principles at the right time, every time.

PFL ESCAPE ROOM

The Project Firstline Escape Room is an interactive superhero-themed infection prevention and control (IPC) activity that you can complete with your colleagues/staff to emphasize key IPC practices.

PFL: NEW JERSEY COLLEGE TOUR INITIATIVE

The goal of this initiative is to help healthcare workers start their careers with the infection control knowledge and realities of practice they need to keep themselves and their patients safe. This initiative is part of Project Firstline, CDC's innovative infection control training collaborative, and is designed to reach the future healthcare and allied health workforce.
