Re: Lifting of Curtailment of  
Imaging Services  
Facility I.D. # NJ 22596

Dear Mr. Lee:

This will confirm our telephone conversation yesterday, November 26, 2018, which included members of my staff, Lisa King and Barbara Gigliello, wherein you were informed that the Curtailment of Imaging Services which was imposed on Ridgefield Imaging Center Inc. on November 15, 2018, is now lifted. The facility may begin to provide imaging services immediately.

This action is based upon the recommendation of the Division of Health Facility Survey and Field Operations (Survey), which has determined that the deficiencies that were identified by the Survey team have been corrected.

Should you have any questions regarding this matter, you may contact the Office of Program Compliance at (609) 984-8128.

Sincerely,

Gene Rosenblum, Director  
Office of Program Compliance  
Division of Certificate of Need & Licensing
