#### 5. Certification Regarding Environmental Tobacco Smoke

Public Law 103-227, also known as the Pro-Children Act of 1994 (Act), requires that smoking not be permitted in any portion of any indoor facility owned or leased or contracted for by an entity and used routinely or regularly for the provision of health, daycare, early childhood development services, education or library services to children under the age of 18, if the services are funded by Federal programs either directly or through State or local governments, by Federal grant, contract, loan, or loan guarantee. The law also applies to children's services that are provided in indoor facilities that are constructed, operated, or maintained with such Federal funds. The law does not apply to children's services provided in private residence, portions of facilities used for inpatient drug or alcohol treatment, service providers whose sole source of applicable Federal funds is Medicare or Medicaid, or facilities where WIC coupons are redeemed.

Failure to comply with the provisions of the law may result in the imposition of a civil monetary penalty of up to \$1,000 for each violation and/or the imposition of an administrative compliance order on the responsible entity.

By signing the certification, the undersigned certifies that the applicant organization will comply with the requirements of the Act and will not allow smoking within any portion of any indoor facility used for the provision of services for children as defined by the Act.

The applicant organization agrees that it will require that the language of this certification be included in any subawards which contain provisions for children's services and that all subrecipients shall certify accordingly.

#### 5. Certification Regarding Environmental Tobacco Smoke

Public Law 103-227, also known as the Pro-Children Act of 1994 (Act), requires that smoking not be permitted in any portion of any indoor facility owned or leased or contracted for by an entity and used routinely or regularly for the provision of health, daycare, early childhood development services, education or library services to children under the age of 18, if the services are funded by Federal programs either directly or through State or local governments, by Federal grant, contract, loan, or loan guarantee. The law also applies to children's services that are provided in indoor facilities that are constructed, operated, or maintained with such Federal funds. The law does not apply to children's services provided in private residence, portions of facilities used for inpatient drug or alcohol treatment, service providers whose sole source of applicable Federal funds is Medicare or Medicaid, or facilities where WIC coupons are redeemed.

Failure to comply with the provisions of the law may result in the imposition of a civil monetary penalty of up to \$1,000 for each violation and/or the imposition of an administrative compliance order on the responsible entity.

By signing the certification, the undersigned certifies that the applicant organization will comply with the requirements of the Act and will not allow smoking within any portion of any indoor facility used for the provision of services for children as defined by the Act.

The applicant organization agrees that it will require that the language of this certification be included in any subawards which contain provisions for children's services and that all subrecipients shall certify accordingly.

The Public Health Services strongly encourages all grant recipients to provide a smoke-free workplace and promote the non-use of tobacco products. This is consistent with the PHS mission to protect and advance the physical and mental health of the American people.

#### 5. Certification Regarding Environmental Tobacco Smoke

Public Law 103-227, also known as the Pro-Children Act of 1994 (Act), requires that smoking not be permitted in any portion of any indoor facility owned or leased or contracted for by an entity and used routinely or regularly for the provision of health, daycare, early childhood development services, education or library services to children under the age of 18, if the services are funded by Federal programs either directly or through State or local governments, by Federal grant, contract, loan, or loan guarantee. By signing the certification, the undersigned certifies that the applicant organization will comply with the requirements of the Act and will not allow smoking within any portion of any indoor facility used for the provision of services for children as defined by the Act.

#### 5. Certification Regarding Environmental Tobacco Smoke

Public Law 103-227, also known as the Pro-Children Act of 1994 (Act), requires that smoking not be permitted in any portion of any indoor facility owned or leased or contracted for by an entity and used routinely or regularly for the provision of health, daycare, early childhood development services, education or library services to children under the age of 18, if the services are funded by Federal programs either directly or through State or local governments, by Federal grant, contract, loan, or loan guarantee. The law also applies to children's services that are provided in indoor facilities that are constructed, operated, or maintained with such Federal funds. The law does not apply to children's services provided in private residence, portions of facilities used for inpatient drug or alcohol treatment, service providers whose sole source of applicable Federal funds is Medicare or Medicaid, or facilities where WIC coupons are redeemed.

Failure to comply with the provisions of the law may result in the imposition of a civil monetary penalty of up to \$1,000 for each violation and/or the imposition of an administrative compliance order on the responsible entity.

By signing the certification, the undersigned certifies that the applicant organization will comply with the requirements of the Act and will not allow smoking within any portion of any indoor facility used for the provision of services for children as defined by the Act.

The applicant organization agrees that it will require that the language of this certification be included in any subawards which contain provisions for children's services and that all subrecipients shall certify accordingly.

# 21. State Planning/Advisory Council and Input on the Mental Health/Substance Abuse Block Grant Application- Required for MHBG

#### Narrative Question

Each state is required to establish and maintain a state Mental Health Planning/Advisory Council to carry out the statutory functions as described in 42 U.S. C. 300x-3 for adults with SMI and children with SED. To meet the needs of states that are integrating services supported by MHBG and SABG, SAMHSA is recommending that states expand their Mental Health Advisory Council to include substance misuse prevention, SUD treatment, and recovery representation, referred to here as an Advisory/Planning Council (PC).SAMHSA encourages states to expand their required Council's comprehensive approach by designing and implementing regularly scheduled collaborations with an existing substance misuse prevention, SUD treatment, and recovery advisory council to ensure that the council reviews issues and services for persons with, or at risk, for substance misuse and SUDs. To assist with implementing a PC, SAMHSA has created Best Practices for State Behavioral Health
Planning Councils: The Road to Planning Council Integration.

Planning Councils are required by statute to review state plans and implementation reports; and submit any recommended modifications to the state. Planning councils monitor, review, and evaluate, not less than once each year, the allocation and adequacy of mental health services within the state. They also serve as an advocate for individuals with M/SUD problems. SAMHSA requests that any recommendations for modifications to the application or comments to the implementation report that were received from the Planning Council be submitted to SAMHSA, regardless of whether the state has accepted the recommendations. The documentation, preferably a letter signed by the Chair of the Planning Council, should state that the Planning Council reviewed the application and implementation report and should be transmitted as attachments by the state.

## Please consider the following items as a guide when preparing the description of the state's system:

- 1. How was the Council involved in the development and review of the state plan and report? Please attach supporting documentation (meeting minutes, letters of support, etc.) using the upload option at the bottom of this page.
  - a) What mechanism does the state use to plan and implement substance misuse prevention, SUD treatment and recovery services?

The New Jersey Behavioral Health Planning Council/ Citizens Mental Health Advisory Board ("Planning Council") is a full and engaged partner of the State Mental Health Agency (SMHA), the New Jersey Division of Mental Health and Addiction Services (DMHAS) in its planning and review of the Community Mental Health Service Block Grant (CMHSBG). The Planning Council is a diverse body predominantly composed of consumers and caregivers who are experienced and knowledgeable advocates for behavioral health services. The chairman and vice-chair of the Planning Council--along with its members and the general public, are given regular updates on activities and preparation of the Block Grant applications and implementation reports. Further public access to the SMHA and SSA's progress on Block Grant documentation are provided via https://bgas.samhsa.gov/Module/BGAS/Users/Login .

The discussions of the Block Grant with the Planning Council (in its general meetings and subcommittee meetings) are open, candid discussions where consumers, family members and stakeholder/advocates share with the SMHA/SSA its concerns and perspective on planned and current activities funded by the Block Grant. The SMHA/SSA reviews all its submissions (e.g., Implementation Reports and block grant applications) with the Council, prior to submission, to the fullest extent possible. These discussions are held in open, public meetings as well as subcommittee meetings that are accessible both in-person and via conference call. These meetings are announced via announcements published in four major newspapers as well as on the on the state website (https://www.state.nj.us/humanservices/dmhas/home/councils/bhpc.html).

In July 2019 the Planning Council was presented with a comprehensive review of the Community Mental Health Services Block Grant Application 2020-2021: (both Adult Services and Children's Services) and the Substance Abuse Block Grant. Members of the Planning Council were given credentials to WebBgas to review (and subsequent comment back to the SMHA) on the draft version of the Block Grant Application. Prior to that meeting, on that same date the BHPC Block Grant Subcommittee met to review the Block Grant application in further detail.

In August 2019 the SMHA again provided detailed updates on the Block Grant Applications (adult mental health, children's mental health and substance abuse & prevention services) to the Planning Council for additional review and feedback. At that meeting Priority Areas and Performance Indicators not discussed in detail during the July 2019 were reviewed. Prior to the August 2019 General Meeting of the Planning Council (earlier that same day), the Block Grant Subcommittee of the Planning Council again convened with the SMHA to review the application in greater detail.

At the October 2019 meeting of the Planning Council the SMHA provided the members with an update and overview of the SAMHSA Substance Abuse Prevention and Treatment (SAPT) Block Grant Implementation Report.

At the November 2019 the SMHA conducted a subsequent review of the 2019 Community Mental Health Services and Substance Abuse Prevention & Treatment Block Grants Implementation Reports for the Planning Council. Further reviews of Priority Indicators for both adult mental health, children's mental health and substance use and prevention services. At that same meeting the Chief Financial Officer of the SMHA presented to the Planning Council on block grant expenditures.

At the December 2019 the Single State Authority for substance abuse services (SSA) presented the results of its Synar Youth Tobacco Sales Survey Report in compliance with reporting provisions of PHS 42 U.S.C 300x-26, and the tobacco regulation for the SABG (45 CFR 96.130 (e).

After the March 2020 meeting of the Planning Council, it was decided by the Chairman (in compliance with Governor Murphy's declaration of a state emergency resulting from the COVID19 epidemic social distancing guidelines) to hold the meetings on a quarterly basis via conference call.

- b) Has the Council successfully integrated substance misuse prevention and treatment or cooccurring disorder issues, concerns, and activities into its work?
- 2. Is the membership representative of the service area population (e.g. ethnic, cultural, linguistic, rural, suburban, urban, older adults, families of young children)?
- 3. Please describe the duties and responsibilities of the Council, including how it gathers meaningful input from people in recovery, families, and other important stakeholders, and how it has advocated for individuals with SMI or SED.

The functions of the NJ Behavioral Health Planning include: (1) to advise and review New Jersey's Federal Community Mental Health Services Block Grant and Substance Abuse Prevention and Treatment Block Grant plans each year before submission and to make recommendations for improving the plans to the Assistant Commissioner of the New Jersey Division of Mental Health and Addiction Services (the Division), (2) to serve as an advocate for consumers concerning State policy, legislation, and regulations affecting behavioral health, (3) to monitor, review, and evaluate the allocation and adequacy of behavioral health services in New Jersey, (4) to advise the Department of Human Services (DHS) and the Division of Mental Health and Addiction Services (as well as the NJ Department of Children and Families' Children's System of Care (CSOC)) concerning the need for, and quality of, services and programs for persons with behavioral health disorders in the state, (5) to advise the Assistant Commissioner concerning proposed and adopted plans affecting behavioral health services provided or coordinated by the Division and the implementation thereof, (6) as appropriate, to assist in the development of strategic plans for behavioral health services in the State and advocate for the adoption of such plans to other state departments or branches of government, and (7) to exchange information and develop, evaluate, and communicate ideas about mental health, substance abuse and co-occurring planning and services. In accomplishing these purposes the Council makes use of the State Planning Council Liaison and her staff (whom are all employees of the SMHA's Office of Olmstead, Compliance, Planning and Evaluation). The State Planning Council Liaison serves the council (and the public) by providing: logistical support for meetings, (including minutes & communications), networking to other state resources, support with navigating state bureaucracy and technical assistance in its advocacy efforts.

The Planning Council gathers input from people in recovery, families and other important stakeholders largely through its open, public, monthly meetings. Guests routinely join the meetings (both in-person and over the phone via a publicly-accessible conference call line) to ask questions or become more informed about behavioral health services in the State. The Planning Council advocates for individuals with SMI and SED in various ways, from presenting personal insights to presenters during the general meeting, to writing letters for/against programs. The Planning Council also has an Advocacy Subcommittee which focus on topics of interest.

<sup>70</sup>There are strict state Council membership guidelines. States must demonstrate: (1) the involvement of people in recovery and their family members; (2) the ratio of parents of children with SED to other Council members is sufficient to provide adequate representation of that constituency in deliberations on the Council; and (3) no less than 50 percent of the members of the Council are individuals who are not state employees or providers of mental health services.

RE: New Jersey' Combined FFY 2020-2021 Community Mental Health and Substance Abuse Prevention and Treatment Block Grant

Dear SAMHSA Grants Management:

On behalf of the New Jersey Mental Health Planning Council (herein referred to as the Planning Council), I am submitting this letter of endorsement for the combined Community Mental Health and Substance Abuse Prevention and Treatment Block Grant application for 2020-2021 submitted by the New Jersey Division of Mental Health and Addiction Services (DMHAS). Prior to the Covid-19 State of Emergency the Planning Council had met monthly, and in addition to regular presentations of interest to members about services and programs throughout the State, the Planning Council has focused much time on the review of the application components. During the Covid-19 State of Emergency the Planning Council adopted a quarterly meeting schedule but will revert to monthly meetings in October.

The Planning Council had had the opportunity to provide input regarding the Combined Block Grant Application. The Planning Council received regular presentations at our Block Grant Subcommittee meetings, as well as at the general membership meetings on the content being developed and the tables being completed. At each meeting, comments and feedback were presented by members to State staff for review and incorporation as applicable. The Covid-19 State of Emergency has inhibited the Planning Council's ability to receive information, thoroughly evaluate and make comments on DMHAS' Block Grant funding allocations. Public comment has been facilitated by using the WebBGAS Citizen's log in, Planning Council members

have had the opportunity to review the Combined Block Grant Application prior to the State's submission.

The Planning Council will continue to evaluate and monitor the implementation of the Block Grant funding and make recommendations as needed. The Planning Council meetings are "Open Public Meetings" and as a result the public at large has also had the opportunity to comment on this submission either in person or on BGAS. In addition, the Planning Council will continue to work over the next year to add to its membership consumers, family members and providers of addiction and co-occurring services in an effort to move closer towards a more behavioral health focused council.

Sincerely,

Phillip Lubitz, Chair

## 22. Public Comment on the State Plan - Required

Narrative Question

Title XIX, Subpart III, section 1941 of the PHS Act (42 U.S.C. § 300x-51) requires, as a condition of the funding agreement for the grant, states will provide an opportunity for the public to comment on the state block grant plan. States should make the plan public in such a manner as to facilitate comment from any person (including federal, tribal, or other public agencies) both during the development of the plan (including any revisions) and after the submission of the plan to SAMHSA. The state should provide the permanent URL allowing SAMHSA and the public to view the state's Block Grant plan during plan development and after submission to SAMHSA.

## 23. Syringe Services (SSP)

### Narrative Question:

The Substance Abuse Prevention and Treatment Block Grant (SABG) restriction<sup>1,2</sup> on the use of federal funds for programs distributing sterile needles or syringes (referred to as syringe services programs (SSP)) was modified by the **Consolidated Appropriations Act**, 2018 (P.L. 115-141) signed by President Trump on March 23, 2018<sup>3</sup>.

Section 520. Notwithstanding any other provisions of this Act, no funds appropriated in this Act shall be used to purchase sterile needles or syringes for the hypodermic injection of any illegal drug: Provided, that such limitation does not apply to the use of funds for elements of a program other than making such purchases if the relevant State or local health department, in consultation with the Centers for Disease Control and Prevention, determines that the State or local jurisdiction, as applicable, is experiencing, or is at risk for, a significant increase in hepatitis infections or an HIV outbreak due to injection drug use, and such program is operating in accordance with State and local law.

A state experiencing, or at risk for, a significant increase in hepatitis infections or an HIV outbreak due to injection drug use, (as determined by CDC), may propose to use SABG to fund elements of an SSP other than to purchase sterile needles or syringes. States interested in directing SABG funds to SSPs must provide the information requested below and receive approval from the State Project Officer. Please note that the term used in the SABG statute and regulation, *intravenous drug user* (IVDU) is being replaced for the purposes of this discussion by the term now used by the federal government, *persons who inject drugs* (PWID).

States may consider making SABG funds available to either one or more entities to establish elements of a SSP or to establish a relationship with an existing SSP. States should keep in mind the related PWID SABG authorizing legislation and implementing regulation requirements when developing its Plan, specifically, requirements to provide outreach to PWID, SUD treatment and recovery services for PWID, and to routinely collaborate with other healthcare providers, which may include HIV/STD clinics, public health providers, emergency departments, and mental health centers<sup>4</sup>. SAMHSA funds cannot be supplanted, in other words, used to fund an existing SSP so that state or other non-federal funds can then be used for another program.

In the first half of calendar year 2016, the federal government released three guidance documents regarding SSPs<sup>5</sup>: These documents can be found on the Hiv.gov website: <a href="https://www.hiv.gov/federal-response/policies-issues/syringe-services-programs">https://www.hiv.gov/federal-response/policies-issues/syringe-services-programs</a>,

Please refer to the guidance documents above and follow the steps below when requesting to direct FY 2021 funds to SSPs.

- Step 1 Request a Determination of Need from the CDC
- Step 2 Include request in the FFY 2021 Mini-Application to expend FFY 2020 2021 funds and support an existing SSP or establish a new SSP
  - Include proposed protocols, timeline for implementation, and overall budget
  - Submit planned expenditures and agency information on Table A listed below
- Step 3 Obtain State Project Officer Approval

Future years are subject to authorizing language in appropriations bills.

- <sup>1</sup> Section 1923 (b) of Title XIX, Part B, Subpart II of the PHS Act (42 U.S.C. § 300x-23(b)) and 45 CFR § 96.126(e) requires entities that receive SABG funds to provide substance use disorder (SUD) treatment services to PWID to also conduct outreach activities to encourage such persons to undergo SUD treatment. Any state or jurisdiction that plans to re-obligate FY 2020-2021 SABG funds previously made available such entities for the purposes of providing substance use disorder treatment services to PWID and outreach to such persons may submit a request via its plan to SAMHSA for the purpose of incorporating elements of a SSP in one or more such entities insofar as the plan request is applicable to the FY 2020-2021 SABG funds *only* and is consistent with guidance issued by SAMHSA.
- <sup>2</sup> Section 1931(a(1)(F) of Title XIX, Part B, Subpart II of the Public Health Service (PHS) Act (42 U.S.C.§ 300x-31(a)(1)(F)) and 45 CFR § 96.135(a) (6) explicitly prohibits the use of SABG funds to provide PWID with hypodermic needles or syringes so that such persons may inject illegal drugs unless the Surgeon General of the United States determines that a demonstration needle exchange program would be effective in reducing injection drug use and the risk of HIV transmission to others. On February 23, 2011, the Secretary of the U.S. Department of Health and Human Services published a notice in the Federal Register (76 FR 10038) indicating that the Surgeon General of the United States had made a determination that syringe services programs, when part of a comprehensive HIV prevention strategy, play a critical role in preventing HIV among PWID, facilitate entry into SUD treatment and primary care, and do not increase the illicit use of drugs.
- <sup>3</sup> Division H Departments of Labor, Health and Human Services and Education and Related Agencies, Title V General Provisions, Section 520 of the Consolidated Appropriations Act, 2018 (P.L. 115-141)
- <sup>4</sup> Section 1924(a) of Title XIX, Part B, Subpart II of the PHS Act (42 U.S.C. § 300x-24(a)) and 45 CFR § 96.127 requires entities that receives SABG funds to routinely make available, directly or through other public or nonprofit private entities, tuberculosis services as described in section 1924(b)(2) of the PHS Act to each person receiving SUD treatment and recovery services.

Section 1924(b) of Title XIX, Part B, Subpart II of the PHS Act (42 U.S.C. § 300x-24(b)) and 45 CFR 96.128 requires "designated states" as defined in Section 1924(b)(2) of the PHS Act to set- aside SABG funds to carry out 1 or more projects to make available early intervention services for HIV as defined in section 1924(b)(7)(B) at the sites at which persons are receiving SUD treatment and recovery services.

Section 1928(a) of Title XXI, Part B, Subpart II of the PHS Act (42 U.S.C. 300x-28(c)) and 45 CFR 96.132(c) requires states to ensure that substance abuse prevention and SUD treatment and recovery services providers coordinate such services with the provision of other services including, but not limited to, health services.

<sup>5</sup>Department of Health and Human Services Implementation Guidance to Support Certain Components of Syringe Services

Programs, 2016 describes an SSP as a comprehensive prevention program for PWID that includes the provision of sterile needles, syringes and other drug preparation equipment and disposal services, and some or all the following services:

- · Comprehensive HIV risk reduction counseling related to sexual and injection and/or prescription drug misuse;
- · HIV, viral hepatitis, sexually transmitted diseases (STD), and tuberculosis (TB) screening;
- Provision of naloxone (Narcan?) to reverse opiate overdoses;
- Referral and linkage to HIV, viral hepatitis, STD, and TB prevention care and treatment services;
- · Referral and linkage to hepatitis A virus and hepatitis B virus vaccinations; and
- Referral to SUD treatment and recovery services, primary medical care and mental health services.

Centers for Disease Control and Prevention (CDC) Program Guidance for Implementing Certain Components of Syringe Services Programs, 2016 includes a **description of the elements of an SSP** that can be supported with federal funds.
