

**FY 2008-11**

**STATEWIDE TRANSPORTATION IMPROVEMENT PROGRAM**

**New Jersey Department of Transportation Projects**

<i>PROJECT NAME</i>	<i>Project ID No.</i>	<i>TIP No.</i>
Route 29 Boulevard, Cass Street to North of Calhoun Street (Southern Section)	02396B	02396B

It is proposed to convert the existing highway to an urban boulevard. Proposed improvements may include removal of shoulders and installation of parking lanes where appropriate or a planted buffer; reduction of the speed limit to 35 miles per hour, installation of pedestrian crosswalks and sidewalks, removal of the pedestrian overpasses, removal of guide rail and fencing where appropriate, installation of decorative lighting and installation of urban design and landscaping amenities.

The following special Federal appropriations were allocated to this project. FY06 SAFETEA-LU, \$2,500,000 (available 10% per year) and SAFETEA-LU, HPP \$4,000,000 (available 20% per year).

<i>PROJECT NAME</i>	<i>Project ID No.</i>	<i>TIP No.</i>
Route 29, Bridge Boulevard (Formerly New Warren Street)	02396B1	02396B1

The project will relocate Warren Street to the north away from Route 1 to provide a developable parcel of land and to separate the traffic signals along Union Street to improve storage and signal progression. Bridge Blvd connects directly to the Trenton Makes Bridge, connecting Trenton to Morrisville, PA. The proposed concept plan for the Route 29 Boulevard includes creating a street network in the downtown area presently occupied by expansive parking lots. This will encourage redevelopment of the downtown area. The concept plan for the downtown area recommends eliminating the high speed ramps connecting Route 29 to Route 1.

<b>PROJECT NAME</b>	<b>Project ID No.</b>	<b>TIP No.</b>
Route 29, Moores Station Canal Crossing (AKA Pleasant Valley Road)	00362F	00362F

This project will provide access to the D&R Canal towpath trail via a bicycle and pedestrian crossing and an opportunity to educate the public about the history of the canal. The project will provide for the construction of an A-frame swing bridge crossing of the D&R Canal and improvements to the existing parking area. Also included is a new boat or canoe dock and a new kiosk sign.

<i>PROJECT NAME</i>	<i>Project ID No.</i>	<i>TIP No.</i>
Route 29, Sullivan Way to West Upper Ferry Road, Safety Improvements	06398	06398

Route 29 is a scenic highway along the Delaware River. The roadway currently has two 12-foot lanes and one outside 12-foot shoulder in each direction. The highway is divided by a 12-foot maximum and variable width grass median. The existing median does not provide median-crossover protection. In addition, the current highway pavement exhibits numerous joint failures, cracks, slab settlement and very poor skid resistance. These conditions result in slippery conditions during wet weather.

A guiderail will be constructed in the existing grass median. The concrete pavement between Aberfeldy Drive and West Upper Ferry Road will be resurfaced with bituminous concrete after all necessary concrete slab and joint repairs are made. The existing pavement between Sullivan Way and Aberfeldy Drive will be milled and resurfaced for preventive maintenance purposes. Modifications of the existing traffic signals and guide rails are not included in the scope of this project. No roadside improvements will be made a part of the project. This is a multi-year funded Transportation Trust Fund (TTF) project under the provisions of Section 13 of P.L. 1995, c.108. Total TTF funding needed for construction is anticipated to be \$7.0 million.
