

Mixed Use and Housing Diversity

Create compact neighborhoods that combine homes of varied sizes with other uses (such as shops, workplaces, public buildings, and green spaces) close by.

Neighborhood Schools

Locate schools near neighborhoods where possible, and in all cases, create safe routes for children to travel to school.

Pedestrian Access

Ensure that all destinations in a neighborhood can be conveniently reached on foot and all neighborhood streets can be crossed safely on foot or in wheelchairs.

Street Scale

Street characteristics, including widths and design speeds, should be scaled to the type and placement of neighborhood buildings.
