Pulaski Skyway will be closed in both directions this weekend **This is the second of eight full closures this spring to install floor beams**

(Trenton) – New Jersey Department of Transportation (NJDOT) officials today are reminding motorists the Pulaski Skyway will be closed in both directions this weekend for the installation of floor beams as the rehabilitation of the historic 83-year-old bridge advances.

Beginning at 9 p.m. tomorrow night, Friday, April 10, through 5 a.m. Monday, April 13, NJDOT's contractor's, CCA Civil Inc. and CCA Civil/Daidone Electric, Joint Venture are scheduled to close the Pulaski Skyway southbound at Tonnele Circle for the removal and installation of floor beams that go across both the northbound and southbound travel lanes. The full closure includes all on and off ramps, including the southbound on ramp from Tonnele Circle.

Due to the temporary installation of metal plates on the Skyway, motorcycles are strongly advised to find an alternate route or use extreme caution when traveling on the southbound lanes of the Pulaski Skyway when it is open.

This is the second of eight full weekend closures of the Skyway that are scheduled to take place through the end of May. NJDOT has created a [video](#) that shows options for alternate routes to help motorists navigate the closures, which can be found on the [NJDOT YouTube channel](#).

The following detours will be in place:

Southbound Traffic (toward Newark):

Leaving the Holland Tunnel, motorists will have the following options:

- Stay to the far right and take the NJ Turnpike-Hudson County Extension to all destinations west and south, including I-78.
- Stay to the left and follow signs for Route 139 West, then stay left to Route 1&9 Truck southbound towards Newark, Route 7 and I-280.
- Motorists should avoid the ramp from Route 139/Covered Roadway that leads into the Tonnele Circle because of expected heavy congestion.

Local Traffic for Jersey City:

- Stay to the middle to take Route 139 Upper Roadway and follow signs to Kennedy Boulevard/Jersey City, to best access many local Jersey City locations and other points north (Secaucus).

Northbound Traffic (toward Jersey City):

Northbound traffic will continue to utilize the same Skyway alternate routes that have been in effect since the northbound lanes were closed last year:

- NJ Turnpike-Hudson County Extension
- Route 1&9 Truck northbound
- Communipaw Avenue to access local Jersey City Locations.

NJDOT created a project-specific website - www.pulaskiskyway.com - which contains a wealth of information about the Skyway and the project, and will be updated with relevant new information as work progresses. The Department is carefully coordinating the Pulaski Skyway project with other regional transportation infrastructure projects to minimize traffic congestion.

The Department has a project hotline telephone number, 973-776-7400, and email, Pulaski.Skyway@dot.nj.gov. Anyone who has questions, concerns, or suggestions is encouraged to contact the Project Outreach Team as work progresses.

NJDOT will be using Variable Message Signs to provide advance notification to motorists of traffic pattern changes associated with the work. Follow us on Twitter @Skywayrehab and visit www.511nj.org for travel advisories.
