Forty-one (41) years' experience in the heavy construction industry. Mr. Goldstein joined Schiavone Construction Co. in 1980 as a Field Engineer. In 1997 he was named Vice President in Charge of Construction Operations and later promoted to Senior Vice President.

While at Schiavone, Mr. Goldstein managed and oversaw the day-to-day operations of the company including field operations, review of project and company financials, meeting with joint venture partners, advising on estimates, reviewing Project Labor Agreements and Collective Bargaining Agreements, meeting with clients, representing the company at industry functions, interviewing and hiring new personnel, managing all field labor assignments, interfacing with subcontractors and material suppliers, establishing company safety standards and policy, and serving on the Board of Directors.

Mr. Goldstein has extensive experience in the management of major infrastructure construction projects, including water supply and wastewater facilities, underground construction, highways, bridges, tunnels, and mass transit facilities. Mr. Goldstein provided direction in the planning, execution, scheduling, and procurement of these projects.

Mr. Goldstein represented the company at all professional industry organizations, e.g. THE MOLES, GCA, ACCNJ, UTCA, and NYBC.

Mr. Goldstein is known for achieving and maintaining good relations with public agencies and private owners as well as the public-at-large in the difficult New York City environment.

A representative list of projects that Mr. Goldstein was directly responsible for include:
