**MEMORANDUM TO:** The State Investment Council  
**FROM:** Timothy M. Walsh Director  
**SUBJECT:** **Investment Reports**

Attached please find the Investment Reporting Package for the month of August 2010.

## **Key Points and Issues For August 2010**

### **Director's Note**

The publicly traded global equity markets had a difficult August. The US Stock Market, as evidenced by the S&P 1500, was down 4.66%. The International Developed stock markets were also negative, but to a lesser extent. The Custom International Equity Index was down 2.76%. Conversely, the global Fixed Income markets were very strong. The Barclays Long Government/Credit bond index was positive 5.22%, while the Citibank World Global Bond Index was up 1.94%. In addition, there were small positive returns in US TIPS, high yield, and mortgage backed securities. Although the month of August is historically marked by light economic activity, August 2010 was characterized by an uptick in mergers and acquisitions by large companies with significant cash holdings. Hopefully, this will be the spark for a rally in US and International equity indices.

The Pension Fund was down 0.09% versus the council benchmark of positive 0.10%. The underperformance was due to slight underperformance in US and international equities, as well as the US fixed income portfolio.

The market value of the Pension Fund on August 31 was \$68.3 billion.

### **Domestic Equity**

- US equities in Common Pension Fund A fell 4.93% in August, more than the 4.66% decline in the benchmark S&P 1500. The Fund's minimal holdings in large telephone companies AT&T and Verizon (both had positive stock gains for the month) accounted for most of the variation with the benchmark's return in August. For the fiscal year-to-date, Common Pension Fund A equities have gained 2.05% versus 1.99% for the S&P 1500. For calendar year-to-date, Common Pension Fund A equities are down 3.89% versus a 4.16% decline for the benchmark.
- Common Pension Fund A was a net buyer of financial, industrial, technology and material stocks in August, and a net seller of consumer, energy, telecom and utility stocks, for total net sales in August of \$53 million. The Fund remains overweight in the industrial, technology and material sectors, and underweight in financials, consumer and telecommunications sectors.

### **International Equity**

- Performance for Common Pension Fund D for August was -2.83% versus -2.76% for the Custom International Equity Index, the benchmark for the international portfolio.

- Asia/Pacific ex-Japan was the most underweight region in the portfolio and the best performing area on an absolute basis adding 32 basis points positive contribution to return for the month. Japan, being slightly underweight to the benchmark, produced a marginally positive contribution to return for the month of August. At the country level UK and Australia were the strongest positive contributors with 21 and 18 basis points positive contribution each.
- Financials, Materials, and Energy were the largest positive sector contributors to return while Industrials and Consumer Discretionary negatively impacted our relative returns.
- We were net buyers of \$322 million of international markets equities in August. We added another \$237 million in Emerging Markets exposure through ETF and direct investments, bringing this asset class to slightly overweight.
- In accordance with State Investment Council regulations, we are reporting that Southern Copper Corporation, which is incorporated in United States, will be classified as an emerging market company based upon our review of the various factors as set forth in the regulations.

### **Domestic Fixed Income**

- Performance for Common Pension Fund B for August was up 4.31%. Excluding the TIPS and high-yield positions contained within Common Pension Fund B, performance was 4.67% versus 5.22% for the Barclays Long Government/Credit Index. For the calendar year-to-date period, Common Pension Fund B (excluding TIPS and High Yield) returned 16.29% versus 17.53% for the Barclays Long Government/Credit Index. The duration of Common Pension Fund B (excluding TIPS and high yield) was 11.39 years as of August 31, 2010.
- The high yield portfolio was up 0.61% for August versus 0.04% for the Barclays High Yield Index. The high yield portfolio was up 7.99% for the calendar year-to-date period versus 8.27% for the Barclays High Yield Index. The TIPS portfolio returned 4.41% in August versus 1.72% for the Barclays TIPS Index, and was up 11.08% for the calendar year-to-date versus 6.36% for the Barclays TIPS Index.
- Within domestic fixed income, we were net buyers of \$260.84 million in domestic fixed income in August, consisting of purchases of \$549.75 million partially offset by sales of \$288.91 million.

### **Alternatives**

- The commodity portfolio was down -1.56% as compared to -2.55% for the Dow Jones UBS Total Return benchmark. For the calendar year-to-date, the commodity portfolio returned -4.32% versus -5.93% for the benchmark.

- The Hedge Fund portfolio returned 0.26% for August versus its benchmark return of 0.01%. For the calendar year-to-date, hedge fund portfolio returned 2.22% versus negative 0.42% for the HFRI Fund of Funds Composite Index.
